

Newman Food Service Updates:

As our Newman Catholic School Sites move into October some changes have occurred.

During September we qualified for a USDA waiver allowing all students to receive a free qualifying school lunch through December, or until the funding runs out. We will notify you when that change occurs. Up until that time all students will receive 1 free lunch per day.

Lunches are also available for pick up if you are a family using remote learning. To receive that meal contact any Newman **school** site near you before 9 am to order that meal. Meals are available for any children in the household under the age of 18.

We are providing a hot or cold meal daily. Students are being handed a tray or container with a qualifying meal and then there are some items that they may add or chose to take. The High School and Middle School are now offering limited ala carte items for an additional fee. Please talk with your child if you do not want them purchasing these items, or email Jderks@newmancatholicschools.com to put a stop on ala carte purchases for your children.

Your continued patience is appreciated as we work through menu transitions, food availability and Covid restrictions for serving. We are taking extra precautions to be sure the lunches your child receive are safe and nutritious.
